All sunrooms are built on five 4"x4" treated runners and use 2"x6" treated floor joists. 5/8" exterior grade plywood is used for the floor. 2"x4" wall studs are no more than 16" on center. 1/2" osb sheathing is standard for walls and roof. 1/2" plywood may be substituted for 2% over base price. Cedar paneling is standard on the inside. Tar paper is used under architectural shingles for the roof. Cupolas are also standard on all sunrooms. Electrical wiring is run in the walls, and includes 2 receptacles, 1 switch, and 1 junction box. Octagon sunrooms include a 36" 15-lite door, while the oval and rectangle sunrooms include a 6' sliding door.

SIDING CHOICES: WHITE, ANTIQUE IVORY, HERITAGE GRAY, CLAY, SANDSTONE

INSULATION IS: R-6 FLOOR AND R-13 WALL AND ROOF.

1/2" PLYWOOD INSTEAD OF OSB = 2% OF BASE SUNROOM PRICE

DEDUCT WINDOWS - \$150 EACH.
